

Total Resource Management

Facilitating environmental sustainability for the benefit of communities and future generations

Forest Professional (RPF, RFT) or Trainee (FIT, ASFIT, TFT, ASTFT) Cranbrook, BC

Maple Leaf Forestry Ltd. is a well-established natural resource consultant based out of Cranbrook, BC. We promote a culture of professionalism, continuous development, and work-life balance in our team. We offer competitive compensation and benefits for both new ambitious professionals looking to build a diverse career, and for experienced professionals looking to foster the next generation of forest professionals.

The successful candidate will work with a diverse range of multi-phase projects in forestry as well as other natural resource sectors. Responsibilities may include: road and cutblock planning; reconnaissance; environmental assessments; layout; developing prescriptions for timber harvest, wildfire fuel reduction, or ecosystem restoration; appraisals; permitting; and developing block- or landscape-level plans.

Preferred Designation, Experience, and Skills:

- ◇ Designation as a Registered Professional Forester (RPF) or Registered Forest Technologist (RFT), or Trainee (FIT, ASFIT, TFT, ASTFT) in good standing with Forest Professionals BC, or eligibility to become one.
- ◇ Experience in accurately collecting and summarizing field data, preparing professional reports, and providing quality assurance for project deliverables.
- ◇ Familiarity with multi-phase forestry projects and the pertinent legislation and standard operating procedures.
- ◇ Project management skills in coordinating team members to achieve project objectives.
- ◇ Class 5 driver's license and submission of a current driver's abstract.
- ◇ Certifications including S100 Fire Training, WHMIS, and Occupational First Aid – Level 1 or the ability to acquire these with company support.

Desirable Attributes:

- ◇ Outdoor enthusiast with a moderate fitness level.
- ◇ Leadership and effective delegation to empower other team members' professional development.
- ◇ Enthusiasm for sponsoring other team members in acquiring professional designations.
- ◇ Collaborative skills in working with other professionals on multi-disciplinary and long-term projects.
- ◇ Conversancy with MS Office Suite® and collecting field data on iPad apps.
