

Your gateway to a global future.

Come On Out - Japan 2024 Programs

Your opportunity to **teach English in Japan** this summer.

Global English Camp (July 14th - August 19th)

Through an **intensive in-person program** focused on **building English-speaking confidence**, you will facilitate conversations with **Japanese high school students** on global topics ranging from the **United Nations Sustainable Development Goals** to their personal **life missions**. You will create lasting memories with **new students each week** as well as form **lifelong connections with other university students** inside and outside the classroom. The program takes place in partnership with a major preparatory school in 50+ venues across Japan, and this year we're celebrating its 10-year anniversary!

Travelling Mentor Program (July 26th - August 27th, TBC)

In this program, you travel to a selection of **unique venues across Japan** to mentor a **broader range of students** compared to our flagship program as part of a smaller, close-knit team. Last year, mentors on this program **built a curriculum** to deliver a **new program in collaboration with a local government** and got the chance to participate in another camp with one of our **partner organizations**.
